REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The outstanding rejection under section 112, second paragraph is withdrawn in view of the amendments clarifying the claim terms or providing antecedent basis.

The rejection under section 103 is withdrawn since the applied references, either alone or in any combination fail to teach the required regeneration steps, or, alternatively fail to provide a basis for modifying the known process for purifying gabapentin, to include the required regeneration steps.

The double patenting rejection is withdrawn since the co-pending claims fail to suggest the instant regeneration steps.

With regard to any possible double patenting rejection over copending 11/722056, see MPEP 804 ("The 'provisional' double patenting rejection should continue to be made by the examiner in each application as long as there are conflicting claims in more than one application unless that 'provisional' double patenting rejection is the only rejection remaining in at least one of the applications.").

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
